

## List of finds of AcrossBorders' excavation in SAC5, Sai Island

*Julia Budka*

Over the course of the ERC AcrossBorders project 2015–2017 campaigns in cemetery SAC5 on Sai Island in northern Sudan a considerable number of finds was made.

The following list of finds illustrates the rich material discovered and is based on the original find lists created in the field. The items are presented in tables which are firstly arranged according to the excavation areas and the years of the discovery.

Within this framework, the internal structure consists of the arrangement of the respective finds with their find numbers after their specific location and according to their stratigraphical unit (SU) numbers. The numbering system of the corpus is based on the find number and the year of discovery.

Subsequently, the items were specified alphabetically according to their various genres such as, *e.g.*, beads, bones, charcoal, faience or pottery. Further data includes the exact date of the discovery.

Most of the finds from AcrossBorders excavations were unearthed in the rock-cut Tomb 26 of which the subterranean part was divided in Features 1-7. The finds of Tomb 26 are sorted according to their location in these features.

Ground plan of substructure of Tomb 26 (©AcrossBorders 2021)

## Complete list of finds from Sai Island, cemetery SAC5 2015–2017 (AcrossBorders project)

Julia Budka and Veronica Hinterhuber

Area 1						
Find no.	Area 1	Description/label/material	SU/ level	Object no.	Date	Name
004/2015	Area 1	amulet/pendant? (1 reused Neolithic pottery sherd, perforated)	000	SAC5 003	14.02.2015	PM
006/2015	Area 1	bones	000		15.02.2015	PM
